

# CUMULATIVE SUBJECT INDEX

Volume 5, 1950

- Accidents-organic-psychic late sequelae of transfusion accident, 139
- Adolescence-differential diagnosis of some emotional disorders of adolescence (with special reference to early schizophrenia), 194
- Aggression notes on aggression, 33
- Alcoholism-death due to cardiac disease following the use of emetine hydrochloride in conditioned-reflex treatment of chronic alcoholism, 4
- evaluation of the aversion treatment of alcoholism, 272
- present day status of medical-psychological aspects of alcoholism, 3
- psychotherapy of the problem drinker, 272
- socio-economic aspects of alcoholism, 265
- tetraethylthiuramdisulphide in treatment of alcoholics, 6
- treatment of chronic alcoholism with apomorphine, 5
- treatment of delirium tremens, 4
- Allesthesia-allesthesia and disturbance of the body scheme, 15
- Amnesia-psychologic effects of electric convulsive treatments. I. Post-treatment amnesia. II. Changes in word association reactions. III. Changes in affective disturbances, 298
- Ampphetamine-acute psychosis caused by dextro-amphetamine, 115
- Amyloidosis-amyloidosis in rheumatoid arthritis, 299
- Anaplasia-simplified classification of the gliomas, based on the concept of anaplasia, 170
- Anemia-folic acid and the neurologic manifestations of pernicious anemia, 139
- Anesthesia-new type of encephalopathy after general anesthesia, 138
- Anophthalmos-microphthalmos and anophthalmos with or without coincident oligocephaly; a clinical and genetic-statistical study, 19
- Anxiety anxiety; its initiation, communication and interpersonal management, 117
- effect of pathologic anxiety on inductive reasoning, 208
- Apathy psychology of apathy, 207
- Apomorphine treatment of chronic alcoholism with apomorphine, 5
- Artane-artane in treatment of Parkinson's disease; a report of its effectiveness alone and in combination with benadryl and parpanit, 91
- treatment of parkinsonism with artane, 176
- Arteriosclerosis-cerebral arteriosclerosis; its mental aspects; an anatomical-clinical study, 72
- Arthritis-amyloidosis in rheumatoid arthritis, 299
- nerve root involvement in vertebral arthritis, 137
- Association psychosis of association: folie à deux, 291
- Ataxia-psychiatric changes associated with Friedreich's ataxia, 72
- Athetosis-athetosis and the basal ganglia, 306
- Autonomic nervous system, procaine as an autonomic drug, 209
- Backache-psychiatric aspects of the low back syndrome, the narcotherapeutic approach, 27
- Barbiturates-addiction to barbiturates and the barbiturate abstinence syndrome, 292
- barbiturate intoxication; a clinical electroencephalographic study, 312
- chronic barbiturate intoxication, 274
- therapy of acute barbiturate poisoning; report of three cases, 292
- Behavior-aggressive behavior, 119
- analysis of a prefrontal lobe syndrome and its theoretic implications, 121
- electroencephalographic and clinical study of children with primary behavior disorders, 313
- expressive component of behavior, 119
- psychotherapy as a problem in learning theory, 128
- Benadryl artane in treatment of Parkinson's disease; a report of its effectiveness alone and in combination with benadryl and parpanit, 91
- Biochemotherapy-nonconvulsive biochemotherapy with histamine; a preliminary report on treatment of hospitalized schizophrenic, manic-depressive and involutional psychotics, 43
- nonconvulsive biochemotherapy with histamine and electric convulsive therapy; a comparative study on hospitalized psychotics with a control ECT series, 43
- Birth injury-birth injury as a cause of mental defect; the statistical problem, 18
- Bis-trimethylammonium decane-effects of bis-trimethylammonium decane diiodide and dibromide on neuromuscular function and on induced convulsions in man, 300
- Blepharospasm-psychopathology of encephalitic blepharospasm, 38
- Blood—See *Electrotherapy*
- Blood calcium-plasma calcium fractions after electric convulsion treatment, 57
- Book reviews—antique incubation and modern psychotherapy, 327
- archives of neurology and psychiatry—vol. 16, 1946-1949, 325

 textbook of neuropathology with clinical, anatomical and technical supplements, 184  
 treatment in psychiatry, 331  
 varieties of delinquent youth, 323  
 yearbook of psychoanalysis, vol. IV, 332  
 yearbook of psychoanalysis, vol. V, 250  
 your child's mind and body, 247  
 Boric acid-treatment of epilepsy with boric-calcium compounds, 304  
 Brain cerebral arteriosclerosis; its mental aspects; an anatomical-clinical study, 72  
 cerebral lesions responsible for death of patients with active rheumatic fever, 167  
 cerebral palsy problem, 224  
 effects of ultraviolet radiation on the exposed brain, 171  
 experimental observations on the so-called senile changes of intracellular neurofibrils, 88  
 focal disorder of brain activity as it relates to the character of convulsive seizures, electroencephalograms in focal seizures, 232  
 localization of the mental functions, a new conception, 294  
 microphthalmos and anophthalmos with or without coincident oligophrenia; a clinical and genetic-statistical study, 19  
 otogenic brain abscess, 161  
 physiopathologic mechanism of central lesions due to carbon monoxide intoxication, 88  
 post-traumatic vasothrombosis; a clinicopathologic syndrome, 89  
 revascularization of the brain through establishment of a cervical arteriovenous fistula; effects in children with mental retardation and convulsive disorders, 90  
 serum injections of the peripheral and central nervous system, 64  
 surgical treatment of extensive arteriovenous aneurysms of the brain by resection of cerebral lobes, 228  
 injuries: cerebral injuries due to explosion waves—"cerebral blast concussion"; a pathologic, clinical and electroencephalographic study, 157  
 comparison of the test performances of the brain-injured and the brain-diseased, 35  
 treatment of cerebral concussion, 82  
 tumors: brain tumors in children, 168  
 brain tumors in mental patients, 290  
 tumors of the brain complicating pregnancy, 316
- Cachexia-compulsion neurosis with cachexia (anorexia nervosa), 28  
 Carbon disulfide-new case of parkinsonism probably due to carbon disulfide, 299  
 Carbon monoxide physiopathologic mechanism of central lesions due to carbon monoxide intoxication, 88  
 Causalgia. See also Pain. Observations on major and minor causalgia, 75  
 Central nervous system—effects of lightning injuries on the central nervous system, 235  
 muscular atrophy and pseudologia fantastica associated with islet cell adenoma of the pancreas, 221

- nervous system complications of diabetes mellitus, with special reference to cerebro-vascular changes, 223
- neurologic conditions occurring as complications of pregnancy, 300
- paraproteinoses and the central nervous system, 227
- tolosias of the central nervous system; review of literature and report of five cases, 316
- virus infection of the nervous system, 315
- Cerebellum-recent contributions to the anatomy and physiology of the cerebellum, 285
- Cerebrospinal fluid-cerebrospinal fluid examination in diagnosis of multiple sclerosis, 145
- Cerebrovascular disease-electroencephalographic study of experimental cerebro-vascular occlusion, 307
- slowing of the alpha-rhythm of the electroencephalogram and its association with mental deterioration and epilepsy, 308
- suggestion for treatment of sequelae of cerebral vascular lesions with intracarotid injections, 126
- Children-bi-sexual social functions for our higher grade children, 198
- brain tumors in children, 168
- diagnostic techniques for children with cerebral palsy, 136
- electroencephalography following head injuries in children, 156
- program for orientation in child psychiatry, 285
- psychiatric therapy in infancy, 284
- psychoneurosis of the only child, 18
- revascularization of the brain through establishment of a cervico-arteriovenous fistula; effects in children with mental retardation and convulsive disorders, 90
- treatment program for parents of schizophrenic children, 20
- Chloral chloral delirium, 273
- Chordoma-malignant cranial chordoma, 234
- Chorea-lithium intoxication producing chorea athetosis with recovery, 140
- pathologic changes in Huntington's chorea and their relation to the chorea mechanism, 89
- Choroid plexus six cases of papilloma of the choroid plexus, 238
- Color blindness-total color blindness of hysterical origin, 277
- Combat neuroses combat exhaustion; a descriptive and statistical analysis of causes, symptoms and signs, 12
- Concussion treatment of cerebral concussion, 82
- Conditional responses-stimulus generalization of conditioned responses, 116
- Convulsions case of nervous crisis of doubtful semiology; effects of ventriculography, 64
- effects of bis-trimethylammonium decane diiodide and dibromide on neuromuscular function and on induced convulsions in man, 300
- effect of trimethadione (tridione) and other drugs on convulsions caused by diisopropyl fluorophosphate (DFP), 301
- glossopharyngeal neuralgia associated with cardiac arrest and convulsions, 221
- rheumatic brain disease as a cause of convulsions, 61
- Coughing-coughing and unconsciousness; the so-called laryngeal vertigo, 142
- Creative ability-effect of leucotomy on creative ability, 136
- Crime clinical and electroencephalographic studies of prisoners charged with murder, 310
- psychological treatment of offenders in prison, 272
- Curare possible psychologic complication and contraindication to electric shock therapy modified with curare; report of a case, 56
- Darvisul use of darvisul in acute poliomyelitis, 85
- Delinquency vocational counseling in rehabilitation of disturbed and delinquent boys, 129
- Delirium-chloral delirium, 273
- treatment of delirium tremens, 4
- Depression modern treatment of depression, 40
- nicotinic acid in treatment of certain depressed states; a preliminary report, 213
- treatment of depression with desoxyephedrine (methedrine), 211
- Dermatology-electroshock therapy in neurodermatitis; case report, 132
- psychosomatic factors in dermatology, 114
- Desoxycorticosterone-desoxycorticosterone in certain psychotic cases, 42
- Dexedrine-modern treatment of depression, 40
- DFP See *Convulsions*
- Diabetes-emotional factors in precipitation of recurrent diabetic acidosis, 200
- nervous system complications of diabetes mellitus, with special reference to cerebro-vascular changes, 223
- Dibenzoparathiazine-treatment of Parkinson's disease with derivatives of dibenzoparathiazine, 237
- Dreams dreams and hypnosis, 204
- Drugs-See also *Physicochemical Therapy, and under names of drugs*
- acute psychosis caused by dextro-amphetamine, 115
- lithium intoxication producing chorea athetosis with recovery, 140
- problem of chemical narco-analysis in legal medicine, 101
- psychoses due to thiocyanate treatment of hypertension, 8
- statistical study of psychoses due to drugs or other exogenous poisons, 7
- Dyspnea physio-pathological findings in a case of hysterical dyspnea, 287
- Dystrophia-adiposogenitalis, development of personality in dystrophia adiposogenitalis, 102
- Ear otogenic brain abscess, 161
- Electric drills-role of repeated trauma by pneumatic drill in production of amyotrophic lateral sclerosis, 71
- Electrocardiography-production of electrocardiographic abnormalities by suggestion under hypnosis; a case report, 113

- Electroencephalography-barbiturate intoxication; a clinical electroencephalographic study, 312
- cerebral injuries due to explosion waves—"cerebral blast concussion"; a pathologic clinical and electroencephalographic study, 157
- clinical and electroencephalographic studies of prisoners charged with murder, 310
- developments in electroencephalography; the basal and temporal regions, 314
- electroencephalogram after head injury, 79
- electroencephalographic and clinical study of children with primary behavior disorders, 313
- electroencephalographic changes after pre-frontal lobotomy, 307
- electroencephalographic changes after pre-frontal lobotomy, with particular reference to the effect of lobotomy on sleep spindles, 78
- electroencephalographic studies in spinal cord disease, 80
- electroencephalographic study of experimental cerebro-vascular occlusion, 307
- electroencephalography following head injuries in children, 156
- electroencephalography in differential diagnosis of supratentorial tumors, 80
- encephalitis in children with electroencephalographic changes, 77
- epilepsy in twins; an analysis of five twin pairs, with electroencephalographic studies, 310
- focal disorder of brain activity as it relates to the character of convulsive seizures, electroencephalograms in focal seizures, 232
- nervous sequelae of hypoglycemic coma; electroencephalographic study, 311
- observations on the wave and spike complex in the electroencephalogram, 81
- present status of clinical electroencephalography, 153
- psychologic correlations with the electroencephalogram, 309
- value and limitations of the electroencephalogram in legal medicine, 154
- Electrotherapy anticipation and prevention of cardiac complications in electroconvulsive therapy, 302
- brief stimulus electric shock therapy, 132
- blood chemistry of schizophrenic patients before, during and after insulin shock therapy, 190
- desoxycorticosterone and electric shock, 298
- effect of electric shock therapy on menstrual cycle in psychiatric disease, 218
- effects of oral tolserol on some aspects of electroshock convulsions, 217
- electroshock therapy in neurodermatitis; case report, 132
- evaluation of progress in established physicochemical treatments in neuropsychiatry, III. use of electroshock in the total psychiatric treatment program, 130
- frontal lobotomy and electric stimulation of orbital surface of frontal lobes, 219
- lung abscess as a complication of electroshock therapy, 297
- new technique of convulsant therapy in psychiatry, 57
- nonconvulsive biochemotherapy with histamine and electric convulsive therapy; a comparative study on hospitalized psychotics with a control ECT series, 43
- plasma calcium fractions after electric convolution treatment, 57
- possible psychologic complication and contraindication to electric shock therapy modified with curare; report of a case, 56
- present status of electric shock therapy, 54
- psychiatric shock treatments in pregnancy, 131
- psychologic effects of electric convulsive treatments. I. post-treatment amnesia. II. changes in word association reactions. III. changes in affective disturbances, 298
- selective use of electroconvulsive therapy in manic patients, 133
- Emetine-therapy-death due to cardiac disease following the use of emetine hydrochloride in conditioned-reflex treatment of chronic alcoholism, 4
- Emotions emotional factors in precipitation of recurrent diabetic acidosis, 200
- emotionalism in the discussion of psychotherapy, 215
- emotionality and perpetual defense, 122
- emotions under a microscope, 109
- social and emotional problems of the mentally retarded child, 293
- some impersonal factors in illness, 110
- Encephalitis—See also *Meningoencephalitis*
- acute disseminated encephalomyelitis following herpes zoster, vaccination and immunization, 165
- encephalitis in children with electroencephalographic changes, 77
- encephalitis with choreic and cerebellar symptoms in a girl convalescing from varicella, 86
- two cases of pseudo-tumoral encephalitis, 163
- Encephalography-encephalopathy of hyperinsulinism, 137
- new type of encephalopathy after general anesthesia, 138
- Encephalomyelitis—encephalomyelitis complicating measles, 164
- increased incidence of non-purulent encephalomyelitis, 314
- Epilepsy—See also *Electroencephalography*
- epilepsy in twins; an analysis of five twin pairs, with electroencephalographic studies, 310
- insensitivity to pain as a complication of phenurone therapy in epilepsy, 303
- newer concepts of epilepsy, 147
- surgery in epilepsy, 303
- treatment of adults for epilepsy. II. general principles, 304.
- treatment of epilepsy with boric-calcium compounds, 304
- treatment of status epilepticus, 146
- "tridione" in treatment of epilepsy, 69
- tridione therapy in minor epilepsy, 70
- Equilibrium-syndrome of sensorimotor induction in disturbed equilibrium, 63
- Exercise medically prescribed exercises for neuropsychiatric patients, 38
- Exhaustion-combat exhaustion, 12

- Extremities-postoperative paralysis in the upper extremity, 231
- Eye-case of retrobulbar neuritis occurring in tuberculous meningitis treated by streptomycin, 67
- quantitative visual index to memory impairment, 206
- tonic pupil, 143
- visual scotomata with intracranial lesions affecting the optic nerve, 65
- Fingers-digital extension reflex, 223
- Folic acid-folic acid and the neurologic manifestations of pernicious anemia, 139
- Forebrain-prefrontal lobes and social development, 288
- Freud-biographical comment on Freud's dual instinct theory, 34
- Friedreich's disease, psychiatric changes associated with Friedreich's ataxia, 72
- Frontal lobe-*See also Leukotomy, Lobotomy*, clinico-anatomical studies of frontal lobe function based on leucotomy material, 68
- Ganglia athetosis and the basal ganglia, 306
- Gargoylism gargoyle (lipochondrodyrophy), 300
- Gastrointestinal diseases-psychosomatic aspects of gastrointestinal disorders, 22
- Glucose *See Insulin*
- Glutamic acid-effect of glutamic acid feeding on cognitive abilities of institutionalized mental defectives, 293
- Guillain-Barré syndrome-clinical study of Guillain-Barré syndrome, 60
- Guillain-Barré syndrome or acute infective polyneuritis, 59
- Head-chronic posttraumatic headache and the syndrome of cervical disc lesion following head trauma, 157
- electroencephalogram after head injury, 79
- electroencephalography following head injuries in children, 156
- long-term results of injuries of the head; medical, economical and sociological survey, 83
- studies on headache, 220
- Hearing-psychopathology of the hard of hearing, 118
- Heart-anticipation and prevention of cardiac complications in electroconvulsive therapy, 302
- life situations-emotions and extrasystoles, 201
- three cases of psychically induced coronary infarct, 26
- Hemianopsia-binasal hemianopsia in neurosurgery, 317
- value of roentgenotherapy for bitemporal hemianopsia caused by pituitary tumor, 318
- Hemiballismus-electric activity of the neostriatum, paleostriatum and neighboring structures in parkinsonism and hemiballismus, 154
- Hemiplegia-neostigmine methylsulfate therapy in hemiplegia, 93
- Heredity-empiric risk figures in mongolism, 283
- familial periodic paralysis; report of a case, 73
- family background of schizophrenia, 282
- observations on essential (heredofamilial) tremor, 74
- Herpes zoster-acute disseminated encephalomyelitis following herpes zoster, vaccination and immunization, 165
- Histamine,-nonconvulsive biochemotherapy with histamine; a preliminary report on treatment of hospitalized schizophrenic, manic-depressive and involutional psychotics, 43
- nonconvulsive biochemotherapy with histamine and electric convulsive therapy; a comparative study on hospitalized psychotics with a control ECT series, 43
- Hormones-desoxycorticosterone and electric shock, 298
- desoxycorticosterone in certain psychotic cases, 42
- Huntington's chorea-pathologic changes in Huntington's chorea and their relation to the chorea mechanism, 89
- Hydrocephalus-cerebral tumor causing hydrocephalus with filling defect of the temporal horn, 235
- Hypoglycemia-nervous sequelae of hypoglycemic coma; electroencephalographic study, 311
- Hyperinsulinism-ephalopathy of hyperinsulinism, 137
- Hypertension-psychiatric factor in essential hypertension, 111
- Hypnosis dreams and hypnosis, 204
- production of electrocardiographic abnormalities by suggestion under hypnosis; a case report, 113
- Hypochondriasis-treatment of hypochondriasis, 125
- Hysteria-physio-pathological findings in a case of hysterical dyspnea, 287
- prognosis of certain hysterical symptoms, 14
- total color blindness of hysterical origin, 277
- Imagery-spontaneous imagery; a new psychotherapeutic approach, 127
- Influenza-sequela of meningitis due to Hemophilus influenzae, 232
- Instincts-biographical comment on Freud's dual instinct theory, 34
- Insulin therapy-effect of insulin shock therapy on glucose metabolism in schizophrenia, 191
- general survey of insulin-treated patients after five years, 216
- in regard to a contraindication to insulin therapy, 53
- insulin shock therapy, a statistical survey of 393 cases, 297
- some observations on insulin shock therapy, 291
- subshock insulin therapy in the neuropsychiatric section of a general hospital, 53
- use of insulin in mental illness, 126
- use of potassium in protracted insulin coma; preliminary report, 44
- Intelligence-instincts and emotions in an anencephalic monster, 106
- phenylpyruvic acid factor in mental deficiency and mental illness, 107
- prefrontal lobes and social development, 288

- Intervertebral disks**—antalgic attitudes of L5 and S1 sciaticas, 140  
 cramp in cases of prolapsed intervertebral disc, 76  
 root-pain and paraplegia due to protrusions of thoracic intervertebral disks, 230
- Isotopes**—multiple myeloma; a study of 24 patients treated with radioactive isotopes (P<sup>32</sup> and SR<sup>87</sup>), 292
- Jaundice**—artificial jaundice in the treatment of central motility disorders; preliminary report, 177
- Jurisprudence**—medical—*See also Crime; Psychiatry*  
 brief psychotherapy of the sex offender; a report of a liaison service between a court and a private physician, 189  
 certain methods of psychiatric investigation and their values as methods of legal investigation, 101  
 criminal responsibility in incipient psychosis, 2  
 narcoanalysis from the medicolegal point of view, 2  
 problem of chemical narco-analysis in legal medicine, 101  
 psychiatry in the criminal courts: twenty-second Maudsley lecture, 1  
 value and limitations of the electroencephalogram in legal medicine, 154
- Laughter** laughter in psychoanalysis, 205
- Leukotomy**—clinical and pathological observations on relapse after successful leucotomy, 49  
 clinical observations concerning schizophrenic patients treated by prefrontal leukotomy, 47  
 clinico-anatomical studies of frontal lobe function based on leucotomy material, 68  
 effect of leucotomy on creative ability, 136  
 prefrontal leucotomy, 134  
 preliminary report of changes after prefrontal leucotomy, 50
- Lightning**—effects of lightning injuries on the central nervous system, 235
- Lithium**—lithium salts in treatment of psychotic excitement, 209
- Little's disease**—resection of the pyramidal anterior columns and adjacent extra-pyramidal tracts in spastic conditions and involuntary motor disturbances, 319
- Liver function**—disturbances of liver function in phasic and intermittent psychoses, 202
- Lobectomy**—extirpation of the right cerebral hemisphere in cortical hemiatrophy, 235  
 studies on the occipital lobe. I. significance of small areas of preserved central vision, 141  
 surgical treatment of extensive arteriovenous aneurysms of the brain by resection of cerebral lobes, 228
- Lobotomy**—adjustment levels in hospitalized schizophrenic patients following prefrontal lobotomy, 134  
 analysis of a prefrontal lobe syndrome and its theoretic implications, 121  
 comparison between various forms of psychosurgery, 135
- Electroencephalographic changes** after prefrontal lobotomy, 307  
 electroencephalographic changes after prefrontal lobotomy, with particular reference to the effect of lobotomy on sleep spindles, 78  
 evaluation of lobotomy and its potentialities for future research in psychiatry and the basic sciences, 134  
 frontal lobotomy and electric stimulation of orbital surface of frontal lobes, 219  
 nursing aspects of the treatment of lobotomized patients, 293  
 prefrontal operations for the treatment of mental illnesses, 47  
 350 cases of prefrontal lobotomy, 216
- Localization**—localization of the mental functions, a new conception, 294
- Lung abscess**—lung abscess as a complication of electroshock therapy, 297
- Malingering** malingered psychoses, 280
- Manic-depressives**—*See also Psychotics*  
 selective use of electroconvulsive therapy in manic patients, 133
- Measles**—encephalomyelitis complicating measles, 164
- Memory**—quantitative visual index to memory impairment, 206
- Meningioma** intracranial meningioma following trauma; report of a case, 234  
 malignant meningioma of the tentorium with metastases in the medulla oblongata and subarachnoid spaces, 233
- Meningitis**—bacterial meningitis and other diseases affecting the meninges; a review of 349 cases, 161  
 case of retrobulbar neuritis occurring in tuberculous meningitis treated by streptomycin, 67  
 case report of cryptococcus meningitis, 162  
 neurologic changes in the course of tuberculous meningitis treated with streptomycin, 240  
 on passage of penicillin from the blood to the subarachnoid space in normal persons and in patients with various forms of meningitis, 146  
 sequelae of meningitis due to *Hemophilus influenzae*, 232  
 streptomycin in treatment of influenzal meningitis, 320  
 treatment of common forms of meningitis, 177
- Meningoencephalitis** isolation of a new virus during an epidemic of meningo-encephalitis in the region of Vyskov, Moravia, 165  
 sequelae of mumps-meningoencephalitis, 163
- Menopause**—“change of life”; a psychosomatic problem, 21
- Menstruation**—effect of electric shock therapy on menstrual cycle in psychiatric disease, 218
- Mental deficiency**—*See also Intelligence*  
 administrative practices to provide better psychiatric care of mental defectives, 210  
 birth injury as a cause of mental defect; the statistical problem, 18  
 effect of glutamic acid feeding on cognitive
